# Summer Program General Information

The Summer Program of the S.F. Recreation and Park Department is in effect June 21 through August 31. # Photography Center

San Francisco is very fortunate to be the home of the most unique amateur photography facility in the entire country.

Would you believe a darkroom with forty enlargers, each with a private workspace? How about a portrait studio, washers for prints, print dryers, dry mounting presses, cutters and more? Well, it's true and it is located in the heart of San Francisco at 50 Scott Street.

The Photography Center is operated by the San Francisco Recreation and Park Department and has been in operation for nearly thirty years. The Center is unique in that it is run similarly to most recreation programs. That is, there are experienced directors to aid members who have questions or problems related to photography. There are also numerous classes designed for all skill levels from novice to advanced.

Probably the most surprising aspect of the Photography Center is the cost. Operated like any recreation program, cost is kept at a bare minimum, to allow as many people as possible the opportunity to utilize this facility.

The Photography Center is truly one of San Francisco's most innovative programs for the residents of the City. If you are an amateur photographer or have an interest in learning more about photography, contact the San Francisco Recreation and Park Department at 558-3706 or call the Photography Center, at 558-4346.

## Membership Fees

## Sunday at the Grove

### *Half a Century of Free Concerts*

This summer, the Stern Grove Midsummer Music Festival celebrates its 50th anniversary of annual free-to-the-public concert seasons in the idyllic natural setting of Sigmund Stern Grove. Having played host to nearly eight million concert-goers at over six hundred performances in its first half-century, the Festival is proud to maintain its strong commitment to the original goals of its founder, Mrs. Sigmund Stern:

- to present the finest performing arts free of charge for the enjoyment of all Bay Area residents and visitors
- to provide summer time performance opportunities for San Francisco's premier resident musicians and artistic groups

The Grove was donated to the City and County of San Francisco in 1931 by Mrs. Stern in memorial tribute to her husband, a distinguished civic and business leader during the first quarter of this century. Mrs. Stern, then President of the San Francisco Recreation Commission and a dedicated supporter of the arts, formed the Stern Grove Festival Association in 1938.

Today the Grove, a serene and majestic natural amphitheatre surrounded by giant eucalyptus, redwood and fir trees, is one of Northern California's favorite concert sites. Each Sunday during the summer months, a diversified crowd averaging 15,000 in number gather to enjoy fine music and dance, many coming early to picnic and relax in the Grove.

### *Public Transportation to Stern Grove:*

Muni Buses 10 - Monterey, 28 - 19th Avenue;  
Metro K - Ingleside, M - Ocean View; BART Glen  
Park station and transfer to Muni bus 10; Daly City  
station and transfer to Muni bus 28.

Vehicles with handicapped permits may be parked at Vale Street. Limited parking for the general public is also available at Vale Street. Transportation for senior and disabled citizens on a motorized "cable car" from corner of 19th Avenue at Sloat to concert area and return provided as a community service by Chevron U.S.A. Inc.

A limited number of picnic tables may be reserved by calling Mrs. Bernice Rodgers, Recreation and Park Department, 558-4728, at 9 AM on the Monday preceding the concert.

## SPECIAL EVENTS & ATTRACTIONS

### LAWN BOWLING LESSONS

Lawn Bowling, or Bowling on the Green, has its roots in old England. It has been played since the thirteenth century and is very popular in most Commonwealth countries. Over one hundred clubs exist in the United States, and in this country, it is played by over 5,000 men and women.

We've found the best way to interest new people in lawn bowling is to let them try it. Excellent health is not essential and a lot of people play with physical handicaps.

Lawn bowling is played with a special bowl that is contoured so that it won't roll in a straight line. Several sizes of bowls are available. The Lawn Bowling Club has extra sets of four bowls to lend new recruits while they learn.

It's possible to get started wrong - and everybody will give you helpful advice. To avoid this confusion and teach you the objectives of the game, its rules and the etiquette that goes with it, we offer you free training by the club.

Like every sport, bowling has many levels of competition. Start with the club games as often as you can. As you get better and learn more control and techniques, advance to visits with other clubs, league play, and even division tournaments.

You'll be surprised to find how little per year it costs to

belong to a bowling club. Some clubs have community financial support. Other clubs pay for part or all of their greens maintenance. In either case, it is very little to pay for outdoor enjoyment. The only other expense is the cost of your own set of bowls.

The San Francisco Lawn Bowling Club located on Bowling Green Drive between King and Kennedy Drives in Golden Gate Park is offering free instruction in lawn bowling Wednesdays, 10 AM, weather permitting. Wear comfortable clothing and flat shoes. Equipment will be provided.

For further information, call Granger or Virginia Hill at 681-1580. Advance registration requested.

## CROQUET FOR ADULTS ONLY - SATURDAY CLINICS

This is not the game you played in your back yard with Aunt Emma. Here, the hefty mallets are three feet long, with weighted, square heads; the rectangular wickets are cast iron, with a fraction of an inch clearance for the balls; the boundaries are wide and long, set on perfectly flat terrain of very short, fast grass.

The San Francisco Croquet Club, with two lawns along 19th Avenue in Stern Grove, hosts 10 summer clinics for adults -- a three-hour excursion into the elegant and exciting world of American 6-wicket Tournament Croquet. All equipment is provided by the club; guests bring lunch for a 30-minute break in the games and instruction. Flat-soled tennis or court shoes to protect the lawns - and an adventurous spirit -- are the only requirements; a donation of \$10.00 is requested, for maintenance of the lawns.

The San Francisco Croquet Club is the largest and most active public, non-profit croquet club in the U.S. Annual dues range from \$25 to \$125 in several categories, with most revenues going for contributions to the San Francisco Recreation and Park Department for the continued im-

provement of the facilities, equipment purchase, and maintenance.

The three-hour clinics are all on Saturdays from 11 AM - 2 PM, on these dates: May 28; June 11; July 2; July 9; July 30; August 13; August 27; September 10; September 17; October 1.

For further information or to reserve your space, call (415) 543-8452 and ask for "Croquet Clinics."

## SPECIAL EVENTS & ATTRACTIONS

### **GOLDEN GATE PARK CARROUSEL**

Exquisitely restored from 1977 to 1984, the Herschel Spillman Carousel, circa 1912-14, has proven to be a Golden Gate Park highlight to all who visit, from youngest to eldest. It is among the last of complete carousels still functioning in this country. Three thousand such machines flourished at the turn of the century. Of these, an estimated 250 (1978) remain. The number of intact carousels is dwindling due to the inability of old-time owners to keep them in running condition, as well as the ravages of fire, vandalism, and the pressures of antique dealers hungry to buy and resell them. Open daily, 10 AM - 4:30 PM fee; Carousel Gift Shop: Fully stocked with carousel wares such as posters, sweatshirts, socks, etc. Proceeds benefit the restoration of the merry-go-round.

### **CONSERVATORY OF FLOWERS**

The Conservatory of Flowers is the oldest, remaining building in Golden Gate Park. Built in the late 1800's, it is an impressive example of Victorian architecture. The

Conservatory of Flowers is a year-round floral wonder that attracts 250,000 visitors a year from all over the world. Consisting of a central dome flanked by two wings, the Conservatory features extensive specialized collections as well as seasonal flower exhibits. Open daily, 9 AM - 6 PM, admission fee.

### **COIT TOWER**

The green summit of Telegraph Hill is called Pioneer Park, so named for the groups of public spirited citizens who bought the land and gave it to the city in 1876. Because of its commanding views, the hill housed a signal station in 1849 to relay news of ships entering the bay to the business community along Montgomery Street, hence the name Telegraph Hill.

The tower is named for a life-long friend of San Francisco's firefighters. Lillie Hitchcock Coit, who in 1929 left funds to the city to be used for a memorial to the volunteer firemen of the 1850's and 1860's.

## SPECIAL EVENTS & ATTRACTIONS

Above the main entrance to the tower is a cast concrete high relief plaque of the phoenix, with outspread wings. This mythical bird, reborn in fire, is a symbol of San Francisco, and appears on the flag and seal of the city.

Within the tower, on the walls of the first and second floors and the connecting stairway are the Coit Tower Murals. These are, for the most part frescoes, painting in watercolor on wet plaster, and they reflect the strong influence of Diego Rivera, who was a master of this technique. Open daily,

10 AM - 5:30 PM. Admission fee.

### JAPANESE TEA GARDEN

The Japanese Tea Garden was constructed in 1893 for the California Midwinter International Exposition of 1894. It was originally called the Japanese Village. Today the Tea Garden is dotted with carp-filled ponds, lanterns, shrines, stepping stones, a drum bridge, tea house and gift shop.

Open daily, 8:30 AM - 5:30 PM. Admission Fee.

### STOW LAKE

Located off King or Kennedy Drives in Golden Gate Park, the lake is surrounded by a walking/jogging path and features Strawberry Hill, Huntington Falls, a rustic bridge and the Roman Bridge where carriages once drove onto Strawberry Hill. A snack bar is in operation and rents row, pedal and electric boats. Open daily, 9AM - 4 PM.

### SAN FRANCISCO ZOO

More than 1,000 animals and birds are housed at the 75 acre facility. Attractions include Koala Crossing, Penguin Island, Gorilla World and the Primate Discovery Center. Open daily, 10 AM - 5 PM, \$5.00 - adults, children under 12 years of age free when accompanied by an adult, 12 - 16 years \$2.00. Seniors may buy a quarterly pass for \$1.00. For more information, see San Francisco Zoo section of this booklet.

The After School Program provides supervised recreational activities at no cost for the youth of San Francisco. The program, originally born out of concern for youth who would be at home unattended during the after school hours, emphasizes services to children and teens at city-wide locations. Proposition D on the November 1986 ballot ammended the City Charter to require that 12% of the Open Space Funds be used for after school programs and supervision for the next three years. San Francisco Unified School District school yards and gymnasiums comprise the majority of the locations for the After School Program. In addition, the Program uses four city park locations, and one community center. The program now operates year-round.

## CHILD DEVELOPMENT ACTIVITIES

The Community Services Division offers over 100 varied Child Development activities in recreation centers and playgrounds throughout the City. This program has a proud heritage dating back to the 1950's as evidenced by the many return visits paid our staff by former participants with fond memories.

The **TINY TOT PROGRAM** offers a variety of activities for children ages 2 1/2 to 5 years. The playgroups are supervised by staff trained to work with children. Their function is to present stimulating, happy, and satisfying experiences, to provide appropriate material, and give assistance when help is needed. The activities encourage the development of a positive self-image, promote improvement of language ability, and offer child participation in socialization experiences. The essence of the program is not formal instruction but rather the acceptance of children where they are both physically, emotionally, and cognitively nurtured and furnished with materials, setting and climate which will best promote their growth and development. The curriculum includes creative arts and crafts, nature and science, active games, books and language experience, large muscle activity, and music.

The many Tiny Tot Programs provide a setting where small children have an opportunity to participate in enjoyable activities which promote their readiness for formal learning and community life. Parent participation in

the program makes possible a carry over into the home of positive skills and attitudes which have been developed through association with other parents and youngsters under warm accepting leadership. Fees vary between 10 - 20 dollars per semester.

The newly developed **KID'S GYM CLASS** enhances natural growth and development of young children 12-30 months of age. This parent participation program is offered at a limited number of recreation centers and playgrounds in ten week sessions for a fee of \$15.00. Specialized movement equipment is available for participants to explore and enjoy.

**SPECIAL INTEREST CLASSES** are offered in: Tumbling, Dance, Music, Cooking, Story-Telling, and Art at several recreation centers and playgrounds throughout the City.

For further information please call: Nancy Rose, Program Coordinator, at 558-3132.

Due to an influx of school age children at our Recreation Centers and Playgrounds during the summer months, our Child Development/Tiny Tot Class Schedule will be reduced. Please contact your neighborhood facility for further information or Nancy Rose at 558-3132 for a complete Citywide Schedule.

## DRAMA & DANCE

558-4277

The Drama and Dance Division, located in the Harvey Milk Recreational Arts Building, 50 Scott Street conducts Drama and Dance activities for youth and adult participants at the Harvey Milk Center and at neighborhood playgrounds and recreation centers throughout the City.

All Drama and Dance Classes have both long and short term goals; to develop their artistic skills and abilities; short term goals focus on providing fun, enjoyment, self-expression and the experience of appearing before an audience of relatives and friends when classes culminate in public performances.

The various levels and categories of drama classes and workshops available to young people are based upon such factors as interest, age category, skills and abilities.

Workshop activity ranges from skits, charades, and theatre games for the seven - twelve year category to "Junior Theatre Productions" for the thirteen and over category. Also available is the "Young People's Musical Theatre Company" geared toward the teenager who desires a more serious approach and long term commitment in the field of drama. In addition to its continuous classes, the "Young People's Musical Theatre Company" offers a 'by auditions only' summer workshop that culminates in the performance of a major musical production most likely a "hit" from Broadway. Workshops and performances are given at the Randall Museum located at Roosevelt Way and Museum Way.

"Clowning Around", a special name given to a unique workshop that teaches young children techniques and tricks on how to be a clown is offered twice weekly at separate locations; workshop series last for six to eight weeks and move from one location to another according to community program needs and requests. Tumbling, juggling and face painting are among the many skills that are taught in this workshop.

Dance classes for youth include a variety of categories with instructors focusing on simple combinations and routines during the beginning stages and gradually leading into more creative and complex routines and patterns. Tap, Ballet, and Jazz are currently among the most popular dances being taught.

Adult Dance Classes include a well balanced variety of modern and traditional styles of dance. Dance styles and techniques differ according to instructor, however, all dance participants consider dancing a great way to stay active, agile and fit. Some adult classes enjoy participating in the annual Sigmund Stern Grove Festival each year.

Aerobic Dance Classes are extremely popular and the preferred method of staying fit by many members in the young adult category.

## GENERAL INFORMATION

### BOAT RENTALS

Row boats, paddle boats and canoes are available on both lakes 7 days a week. Floatation devices are included in each rental while anchors may be rented for \$2.00 a day. Paddle boats hold a maximum of 2 persons, canoes a maximum of 3 persons and row boats a maximum of 4 average size persons. Safety is a primary concern, horse-play or overloading of boats is not allowed. Boats are available on a first come, first served basis. A \$20.00 deposit is required on each boat, \$30.00 on electric motor and boat. You must be 16 years of age or older to rent a boat.

## FISHING INFORMATION

### GENERAL

Both lakes provide very good trout fishing year round. No need to travel hundreds of miles when this fine fishery is located so close to home. Trout fishing tends to be best in the spring and fall, but the weather keeps water conditions good throughout the summer. Because of limited run off, the water remains clear in the winter, enhancing fishing conditions. Black bass, carp and catfish also provide action for fishermen. Bass to 8 pounds have been taken from both lakes. Carp to 15 pounds often test an anglers skill and should not be overlooked for the excellent sport they can provide. The rainbow trout is the most popular fish here, ranking from 6 inches to 10 pounds. 2 pound trout are very common in the North lake.

### NORTH LAKE - TROPHY TROUT

North Lake at Lake Merced has been designated a trophy trout lake. These trout range from 3/4 pound up to 10 pounds. The average trout is about 12 to 14 inches long and weighs approximately 1 pound. The Department of Fish and Game also plants the lake monthly, with approximately 8,000 smaller fish averaging 1/4 to 1/3 pound each. The mix of small and large trout makes for an excellent fishery. When that light bite starts, a fisherman may be hooking into an 8 inch frying pan special or a 10 pound monster. A \$2.50 daily access fee is charged to finance this program.

### SOUTH LAKE

The South Lake at Lake Merced also provides a fine trout fishery. Fish and Game plants approximately 90,000 trout a year into the South Lake. These trout average 1/4 - 1/3 pound each. Limits of small fish are very common. Some large holdover trout in the 5 pound range are caught each year. The South Lake is also occasionally stocked with larger trout in the 1 pound range. A daily or annual permit

is required on this lake.  
16 years and older  
\$1.00 Daily  
\$4.00 Annual for Seniors  
\$8.00 Annual for non Seniors

### RULES AND REGULATIONS

All persons 16 years of age or older who fish Lake Merced must possess a valid California State Fishing License. In addition to a state license, North Lake daily fishing permits are also required for any person to fish in the North Lake.

These permits cost \$2.50 a day and are used to finance the extensive fish planting program in this lake. Children 11 and under may fish off another fisherman's permit but only 1 limit is allowed between the 2 fisherman. Permits are available at the bait and tackle shop and are only valid for the day on which they are purchased.

The South Lake also requires a valid permit. Daily permits cost \$1.00. Annual permits are available for the South Lake only. The annual fee is \$8.00 or \$4.00 for seniors (62 and over). North and South Lake permits are not interchangeable.

### LIMITS

Trout - 5; Bass - 5; Catfish - 10; Carp - No limit

All California Fish and Game laws are enforced. Please check the sport fishing regulations for further information. No night fishing is allowed. Fishing is not permitted on shoreline lined by tules. Please keep out of marked areas. Boaters may not tie to tules.

## THE SAN FRANCISCO ZOO

This popular attraction has become one of the nation's finest zoos. The innovative Primate Discovery Center, one of the most exciting zoological exhibits ever built, exhibits 16 rare and endangered primate species in naturalistic settings. The Center's Nocturnal Gallery creates a midnight world for exotic nocturnal primates. Other zoo highlights include Koala Crossing, Gorilla World, Penguin Island, Prince Charles the rare white tiger, and the only Insect Zoo in the Western United States. The feeding of the big cats takes place at 2 PM every day except Monday. Other attractions include a beautifully restored antique carousel and a four-mile safari train tour of the zoo.

The Wildlife Theater reopens for the summer at the San Francisco Zoo. See spectacular bird of prey flight demonstrations and meet a great-horned owl, a Virginia opossum, an American alligator and other animals in lively and informative programs, beginning June 21 and continuing through September 4, every Tuesday through Saturday, from 1 PM - 3 PM.

**Zoo Location:** Entrances to the zoo are located on Sloat Blvd. at 45th Ave. and on Herbst Road off Skyline Blvd.

**Hours:** 10 AM to 5 PM every day of the year.

From June 21, Nature trail is open every day except Monday, 11 AM - 4 PM.

At the Insect Zoo, discover the hidden world of 64 species of common and exotic arthropods, from velvet ants and honey bees to giant millipedes and hissing cockroaches, and learn more at the Tarantula Talk held daily in the Insect Zoo at 2:30 PM.

## **SAN FRANCISCO MERIONETTES SYNCHRONIZED SWIM TEAM**

Synchronized swimming is the newest olympic sport. The opportunity to train and compete as a synchronized swimmer is offered to all young girls, ages 6 - 14 yrs. of age.

The San Francisco Merionettes have been in existence for 30 years and continue to be a major component of womens sports in San Francisco. The only prerequisite to registration for this program is to have no fear of the water and some beginning swim experience.

The new recruits are trained by supportive experienced coaches on swimming techniques and at the same time are developed to increase their stamina as a speed swimmer. After they have succeeded in passing the required tests, the girls are trained in water figures better known as synchronized swimming. As they are perfecting their configurations, they are trained as gymnasts to execute patterns and routines that have been choreographed to music.

Participants train 3 - 5 evenings a week at indoor pools in the City. Girls compete locally and nationally. This season schedule includes travel to Southern California, Washington, Kansas and Florida. Social merits of the program are many. Alcohol and drugs are nil among the Merionettes. Girls of varying races, ethnic, religious and socio economic backgrounds successfully interact and form a sisterhood because of numerous practice and performance hours spent together.

To inquire about registration, please contact Carol at 681-1443.

## **SEALS SWIM TEAM**

Boys and Girls, ages 6 - 18 years of age, are taught competitive skills in freestyle, breaststroke, backstroke and butterfly events. Youth can practice daily and participate in U.S. Swimming meets held throughout Northern California. Coach Bob Atkins began teaching swimming at the age of 14. He has been head coach since the 1960's. Many of his swimmers have achieved high levels of success in University and College swim meets.

Sessions are held at Hamilton Pool, Geary and Steiner Streets, year-round, 4 - 6 PM. Any boy or girl who can swim the width of the pool is eligible to join.

Nominal dues of \$20 per month (family discounts available) are used for equipment, awards, and team travel. Limited scholarships are available. For more information, contact Bob Atkins at 931-2450 or Pam Shaughnessy at 661-8497.

## CHILD DEVELOPMENT ACTIVITIES

The Community Services Division offers over 100 varied Child Development activities in recreation centers and playgrounds throughout the City. This program has a proud heritage dating back to the 1950's as evidenced by the many return visits paid our staff by former participants with fond memories.

The **TINY TOT PROGRAM** offers a variety of activities for children ages 2 1/2 to 5 years. The playgroups are supervised by staff trained to work with children. Their function is to present stimulating, happy, and satisfying experiences, to provide appropriate material, and give assistance when help is needed. The activities encourage

the development of a positive self-image, promote improvement of language ability, and offer child participation in socialization experiences. The essence of the program is not formal instruction but rather the acceptance of children where they are both physically, emotionally, and cognitively nurtured and furnished with materials, setting and climate which will best promote their growth and development. The curriculum includes creative arts and crafts, nature and science, active games, books and language experience, large muscle activity, and music.

The many Tiny Tot Programs provide a setting where small children have an opportunity to participate in

# CHILD DEVELOPMENT ACTIVITIES

enjoyable activities which promote their readiness for formal learning and community life. Parent participation in the program makes possible a carry over into the home of positive skills and attitudes which have been developed through association with other parents and youngsters under warm accepting leadership. Fees vary between 10 - 20 dollars per semester.

The newly developed **KID's GYM CLASS** enhances natural growth and development of young children 12-30 months of age. This parent participation program is offered at a limited number of recreation centers and playgrounds in ten week sessions for a fee of \$15.00. Specialized movement equipment is available for participants to explore and enjoy.

**SPECIAL INTEREST CLASSES** are offered in: Tumbling, Dance, Music, Cooking, Story-Telling, and Art at several recreation centers and playgrounds throughout the City.

For further information please call: Nancy Rose, Program Coordinator, at 558-3132.

## DRAMA & DANCE

558-3601

The Drama and Dance Division, located in the Harvey Milk Recreational Arts Building, 50 Scott Street conducts Drama and Dance activities for youth and adult participants at the Harvey Milk Center and at neighborhood playgrounds and recreation centers throughout the City.

All Drama and Dance Classes have both long and short term goals; to develop their artistic skills and abilities; short term goals focus on providing fun, enjoyment, self-expression and the experience of appearing before an audience of relatives and friends when classes culminate in public performances.

The various levels and categories of drama classes and workshops available to young people are based upon such factors as interest, age category, skills and abilities.

Workshop activity ranges from skits, charades, and theatre games for the seven - twelve year category to "Junior Theatre Productions" for the thirteen and over category. Also available is the "Young People's Musical Theatre Company" geared toward the teenager who desires a more serious approach and long term commitment in the field of

drama. In addition to its continuous classes, the "Young People's Musical Theatre Company" offers a 'by auditions only' summer workshop that culminates in the performance of a major musical production most likely a "hit" from Broadway. Workshops and performances are given at the Randall Museum located at Roosevelt Way and Museum Way.

"Clowning Around", a special name given to a unique workshop that teaches young children techniques and tricks on how to be a clown is offered twice weekly at separate locations; workshop series last for six to eight weeks and move from one location to another according to community program needs and requests. Tumbling, juggling and face painting are among the many skills that are taught in this workshop.

Dance classes for youth include a variety of categories with instructors focusing on simple combinations and routines during the beginning stages and gradually leading into more creative and complex routines and patterns. Tap, Ballet, and Jazz are currently among the most popular dances being taught.

Adult Dance Classes include a well balanced variety of modern and traditional styles of dance. Dance styles and techniques differ according to instructor, however, all

# HARVEY MILK RECREATIONAL ARTS BUILDING

dance participants consider dancing a great way to stay active, agile and fit. Some adult classes enjoy participating in the annual Sigmund Stern Grove Festival each year.

Aerobic Dance Classes are extremely popular and the preferred method of staying fit by many members in the young adult category.

# LATCHKEY PROGRAM

## HISTORY

The Latch Key Program commenced on April 4, 1988, at seventeen recreation facilities throughout the City. It is designed for youngsters between the ages of six and twelve years. The hours of operation vary. During the school year, the program operates from 2:00 PM until 6:00 PM, Monday through Friday. Activities at each site include homework assistance, field trips, snacks, athletic, and cultural activities. Two directors are assigned to administer each program site. The program does not provide complete custodial care. Parents should be aware that the San Francisco Recreation and Park Department will not be responsible for any child who arrives late or leaves the program early. The program will at all times retain its function as a recreation activity that will be conducted in compliance with all policies set forth by the Recreation and Park Commission.

## PURPOSE

The Latch Key recreation program was created to provide safe and supervised activities at various recreation facilities for these youngsters who lack adequate supervision after school. The program offers an alternative to the situation of children at home unsupervised or sometimes wandering the streets where, more often than not, trouble can be found.

This concept is structured so as to provide educational, social, and cultural activities for these youngsters, in an attempt to assist in their development during these formative years. Very light snacks are also served because of the extended hours of the program.

## SPECIAL NEEDS DIVISION

The Special Needs Division sponsors programs for developmentally disabled adults, children and adults with a hearing impairment, adults with a mental illness and children with an orthopedic disability. A proposed program serving low vision adults is being planned and hopefully will be implemented.

Programs serving the developmentally disabled, provide a sociable atmosphere so that social interaction may take place as a natural reaction, and also provide them with activities suitable and yet satisfying to the individual according to their capability, interest and developmental patterns and needs. We also provide such activities as setting the table for lunch, helping to clean up, distributing equipment, etc.

Two main goals that we have achieved for adults with a hearing impairment, was providing them with a facility for physical activity and planned field trips to points of interest in the Bay Area. Most of these adults live in the Tenderloin District and haven't had the opportunity for any physical activity and to visit points of interest in the Bay Area.

The main goals and objectives for children with a hearing impairment are to provide an environment where the children can play, explore and develop their skills in recreational activities. It is also a time when the children

can interact with their deaf and hearing peers, learning how to develop equal and trusting relationships. An outcome which we would like to achieve through this program is to promote deaf awareness amongst the community as well as providing isolated deaf children with positive exposure to the deaf community and culture.

The purpose for initiating a program for adults with mental illness is to provide them with a variety of activities, so their individual experiences may be broadened or further developed.

The purpose of implementing a program for the low vision group, is to provide them with transportation on planned field trips once a month to points of interest in the Bay Area. Hopefully this will eventually lead into a program expansion for this special interest group.

Row boats, paddle boats and canoes are available on both lakes 7 days a week. Floatation devices are included in each rental while anchors may be rented for \$2.00 a day. Paddle boats hold a maximum of 2 persons, canoes a maximum of 3 persons and row boats a maximum of 4 average size persons. Safety is a primary concern, horse-play or overloading of boats is not allowed.

- Boats are available on a first come, first served basis.
- A \$20.00 deposit is required on each boat, \$30.00 on electric motor and boat.
- You must be 16 years of age or older to rent a boat.

## FISHING INFORMATION

### GENERAL

Both lakes provide very good trout fishing year round. No need to travel hundreds of miles when this fine fishery is located so close to home. Trout fishing tends to be best in the spring and fall, but the weather keeps water conditions good throughout the summer. Because of limited run off, the water remains clear in the winter, enhancing fishing conditions. Black bass, carp and catfish also provide action for fishermen. Bass to 8 pounds have been taken from both lakes. Carp to 15 pounds often test an anglers skill and should not be overlooked for the excellent sport they can provide. The rainbow trout is the most popular fish here, ranking from 6 inches to 10 pounds. 2 pound trout are very common in the North lake.

### NORTH LAKE - TROPHY TROUT

North Lake at Lake Merced has been designated a trophy trout lake. These trout range from 3/4 pound up to 10 pounds. The average trout is about 12 to 14 inches long and weighs approximately 1 pound. The Department of Fish and Game also plants the lake monthly, with approximately 8,000 smaller fish averaging 1/4 to 1/3 pound each. The mix of small and large trout makes for an excellent fishery. When that light bite starts, a fisherman may be hooking into an 8 inch frying pan special or a 10 pound monster. A \$2.50 daily access fee is charged to finance this program.

### SOUTH LAKE

The South Lake at Lake Merced also provides a fine trout fishery. Fish and Game plants approximately 90,000 trout a year into the South Lake. These trout average 1/4 - 1/3 pound each. Limits of small fish are very common. Some large holdover trout in the 5 pound range are caught each year. The South Lake is also occasionally stocked with larger trout in the 1 pound range. A daily or annual permit

is required on this lake.

16 years and older

\$1.00 Daily

\$4.00 Annual for Seniors

\$8.00 Annual for non Seniors

### RULES AND REGULATIONS

All persons 16 years of age or older who fish Lake Merced must possess a valid California State Fishing License. In addition to a state license, North Lake daily fishing permits are also required for any person to fish in the North Lake.

These permits cost \$2.50 a day and are used to finance the extensive fish planting program in this lake. Children 11 and under may fish off another fisherman's permit but only 1 limit is allowed between the 2 fisherman. Permits are available at the bait and tackle shop and are only valid for the day on which they are purchased.

The South Lake also requires a valid permit. Daily permits cost \$1.00. Annual permits are available for the South Lake only. The annual fee is \$8.00 or \$4.00 for seniors (62 and over). North and South Lake permits are not interchangeable.

### LIMITS

Trout - 5; Bass - 5; Catfish - 10; Carp - No limit

All California Fish and Game laws are enforced. Please check the sport fishing regulations for further information. No night fishing is allowed. Fishing is not permitted on shoreline lined by tules. Boaters may not tie to tules. The tule area at Lake Merced is a habitat for water fowl and native wildflowers. Please keep out of marked areas.

Wildlife Conservation series: An Evening with Iain and Oria Douglas-Hamilton. Place TBA. Time: 8:00 PM

Just 25 years ago an assistant in an animal-research project spent a summer in the Serengeti in Tanzania. Two years later he returned and, except for getting his doctorate at Oxford, he has made East Africa his home. He met his future wife, born in Kenya, who became his assistant in keeping records, darting elephants, and photographing them. Their book, *AMONG THE ELEPHANTS*, (The Viking Press, 1975), pioneered the way for using individual recognition in wildlife research.

Among questions they will discuss are: Do elephants bury their dead? Do they remove their tusks? Are orphaned calves rejected by females not their mothers? Does anti-social behavior result from density? What happens to teenage elephants when their strong family ties are broken and only they remain? Is it true that the present crisis is out of the hands of Africans, that the ivory trade has taken over.

*The Merionettes Synchronized Swim Team offers an opportunity for girls 6-14 years of age to train and compete as a synchronized swimmer.*

## Merionettes Synchronized Swim Team

Synchronized swimming is the newest olympic sport. The opportunity to train and compete as a synchronized swimmer is offered to all young girls, ages 6 - 14 years of age.

The San Francisco Merionettes have been in existence for 30 years and continue to be a major component of womens sports in San Francisco. The only prerequisite to registration for this program is to have no fear of the water and some beginning swim experience.

The new recruits are trained by supportive, experienced coaches in swimming techniques and at the same time develop increased stamina as speed swimmers. After they have succeeded in passing the required tests, the girls are trained in water figures, better known as synchronized swimming. As they are perfecting their configurations, they are trained as gymnasts, to execute patterns and routines that have been choreographed to music.

Beginners train two times per week at 5 PM, working up to 3 - 5 evenings a week at indoor pools in the City. Girls compete locally and nationally. This season's schedule includes travel to Southern California, for the regional competition and possibly on to New York. Girls of varying races, ethnic, religious and socio-economic backgrounds successfully interact and form a sisterhood because of numerous practices and performance hours spent together.

To inquire about registration, please contact Carol Cockburn at 681-1443 or Lona Albano at 333-1608.

# CHILD DEVELOPMENT ACTIVITIES

Very young children can join in the fun and benefit from special recreation programs all their own.

The Community Services Division of the Recreation and Park Department offers over 100 child development activities in recreation centers and playgrounds in almost every district of the City.

The Tiny Tots Program offers a variety of activities for children ages 2 1/2 to 5 years. The playgroups are supervised by staff trained to work with children. Their function is to present stimulating, happy, and satisfying experiences, provide appropriate material, and give assistance when help is needed. The activities encourage the development of a positive self-image, promote improvement of language ability, and offer social experiences for children. The essence of the program is to promote growth and development. The curriculum includes creative arts and crafts, nature and science, active games, books and language experience, large muscle activity and music.

The many Tiny Tot Programs provide a setting where small children have an opportunity to participate in enjoyable activities which promote their readiness for formal learning and community life. Parent participation in the program makes possible a carryover into the home of the positive skills and attitudes which have been developed through association with other parents and youngsters under warm accepting leadership. Fees vary between \$10 - \$20 per semester.

The newly developed Kid's Gym Class enhances natural growth and development of young children 12 - 30 months of age. This parent participation program is offered at a limited number of recreation centers and playgrounds in ten week sessions for a fee of \$15.00. Specialized movement equipment is available for participants to explore and enjoy.

**SPECIAL INTEREST CLASSES** are offered in: Tumbling, Dance, Music, Cooking, Story-Telling, and Art at several recreation centers and playgrounds throughout the City.

For further information please call: Nancy Rose, Program Coordinator, at 558-3132.

# LATCHKEY PROGRAM

Here's a wonderful solution to a difficult problem. Young children no longer need be left alone and unsupervised in the summer months during "school" and "after-school" hours when adult members of the family can't be home.

The expanded Summer Latchkey Program provides supervised activities for children 6-12 years of age at 13 locations around the City at affordable prices.

Parents or guardians can register children at the site of their choice. At the end of each day, children will be released only to a parent or guardian or person designated by a parent in advance.

Activities include sports, games, crafts, field trips and special programs. Hours of operation are 10 Am - 6 PM at the following locations:

The Drama and Dance Division, headquartered in the Harvey Milk Recreational Arts Building, 50 Scott Street, provides drama and dance classes, workshops and companies for youth and adult participants at the Harvey Milk Center and at neighborhood playgrounds and recreation centers throughout the City.

The classes have both long and short term goals; to develop the artistic skills and abilities of participants over the long term, while focusing on providing fun, enjoyment, self expression and a positive performance experience when classes culminate in public performances for friends and families.

The level of dramatic classes and workshops available to a young person is determined by their interest, age, skills and abilities.

Drama workshops focus on skits, charades and theatre games for 7 - 12 year olds. "Junior Theater" is for 10 - 16 year olds with a deeper interest in performance. The Young People's Musical Theater Company is geared toward the teenager who desires a more serious approach and long term commitment to "Broadway" theater. In addition to its continuous classes, the Young People's Musical Theatre Company offers a "by auditions only" summer workshop that culminates in the performance of a major musical production. Workshops and performances are often given at the Randall Museum located at Roosevelt Way and Museum Way.

Dance classes for youth include a wide variety of styles with instructors focusing on simple combinations and routines

during the beginning stages and gradually leading into more creative and complex routines and patterns. Tap, Ballet, and Jazz are currently among the most popular dance styles being taught.

Adult Dance Classes include a well balanced variety of modern and traditional styles of dance. Techniques differ according to instructor. Aerobic Dance Classes are also extremely popular and the preferred method of staying fit by many of the participants.

# SPECIAL NEEDS

*Special Needs Division clients enjoy one of the social luncheons during the year.*

The Special Needs Division sponsors programs for adults and children with developmental disabilities and emotional disturbances, as well as special programs designed for people with hearing or vision impairment, or orthopedic limitations.

Programs serving people with developmental disabilities provide a comfortable atmosphere where social interaction takes place as a natural result. Suitable activities provide satisfying experiences for individuals according to their interest, capacity and developmental needs. In addition to recreation, living skills enhancement are part of some of the programs - providing opportunities for such activities as setting the table for lunch, or helping with cleanup.

The program for children with hearing impairments provides an environment where the children can play, explore and develop their skills in recreational activities, while interacting with both deaf and hearing peers, which leads to the development of more trusting and equal relationships. Another goal of this program is to promote awareness of the problems of people with hearing impairments within the

hearing community, and to familiarize participants with the cultural activities and resources available to people with hearing disabilities.

The program for adults with hearing impairments focuses on providing opportunities for physical activities and trips to points of interest in the Bay Area.

The program for emotionally disturbed adults provides a variety of activities geared toward broadening individual experiences.

Children with low vision can participate in a program offering swimming, and other recreational and athletic activities, field trips and adventure excursions as well as interaction with sighted peers and life skills development opportunities.

Special programs for each of these groups, as well as for orthopedically disabled, range from 1-4 days per week. Call 558-5031 for information on specific programs planned for the summer.

# **FRIENDS OF RECREATION & PARKS**

# LAKE MERCED

In the heart of the City - a bit of the country. A rare treasure is Lake Merced, covering 368 acres. Located at #1 Harding Road, Skyline at the Great Highway (753-1101), it is one of the largest natural open spaces within San Francisco.

Recreational facilities at the Lake include Harding and Fleming Golf Courses and the Lake Merced Sports Center. Concessionaires at the Sports Center rent small non-power boats and issue fishing permits. The golf course and boathouse restaurants are open to the public. The Lake is also a favorite site for walking, jogging, bicycling, and bird watching. Lake Merced is probably the single most productive birding area in San Francisco. The Lake also serves as an emergency reservoir for the City.

## BOAT RENTALS

Row boats, paddle boats and canoes are available on both lakes 7 days a week. Floatation devices are included in each rental while anchors may be rented for \$2.00 a day. Paddle boats hold a maximum of 2 persons, canoes a maximum of 3 persons and row boats a maximum of 4 average size persons. Safety is a primary concern, horseplay or overloading of boats is not allowed.

- Boats are available on a first come, first served basis.
- A \$20.00 deposit is required on each boat, \$30.00 on electric motor and boat.
- You must be 16 years of age or older to rent a boat.

## FISHING INFORMATION

### General

Both lakes provide very good trout fishing year round. No need to travel hundreds of miles when this fine fishery is located so close to home. Trout fishing tends to be best in the spring and fall, but the weather keeps water conditions good throughout the summer. Because of limited run off, the water remains clear in the winter, enhancing fishing conditions. Black bass, carp and catfish also provide action for fishermen. Bass to 8 pounds have been taken from both lakes. Carp to 15 pounds often test an anglers skill and should not be overlooked for the excellent sport they can provide. The rainbow trout is the most popular fish here, ranking from 6 inches to 10 pounds. Two pound trout are very common in the North lake.

### North Lake - Trophy Trout

North Lake at Lake Merced has been designated a trophy trout lake. These trout range from 3/4 pound up to 10 pounds. The average trout is about 12 to 14 inches long and weighs approximately 1 pound. The Department of Fish and

Game also plants the lake monthly, with approximately 8,000 smaller fish averaging 1/4 to 1/3 pound each. The mix of small and large trout makes for an excellent fishery. When that light bite starts, a fisherman may be hooking into an 8 inch frying pan special or a 10 pound monster. A \$2.50 daily access fee is charged to finance this program.

### South Lake

The South Lake at Lake Merced also provides a fine trout fishery. Fish and Game plants approximately 90,000 trout a year into the South Lake. These trout average 1/4 - 1/3 pound each. Limits of small fish are very common. Some large holdover trout in the 5 pound range are caught each year. The South Lake is also occasionally stocked with larger trout in the 1 pound range. A daily or annual permit is required on this lake. Participants must be 16 years of age and older.

- \$1.00 Daily
- \$4.00 Annual for Seniors
- \$8.00 Annual for non Seniors

### Rules and Regulations

All persons 16 years of age or older who fish Lake Merced must possess a valid California State Fishing License. In addition to a state license, North Lake daily fishing permits are also required for any person to fish in the North Lake.

These permits cost \$2.50 a day and are used to finance the extensive fish planting program in this lake. Children 11 and under may fish off another fisherman's permit but only 1 limit is allowed between the 2 fisherman. Permits are available at the bait and tackle shop and are only valid for the day on which they are purchased.

# STRYBING ARBORETUM AND BOTANICAL GARDENS

9th Avenue at Lincoln Way, Golden Gate Park 661-1316

## ARBORETUM

An Arboretum is a living library of plants. Its main purpose is educational, serving as a living reference for all plant lovers. Because of San Francisco's unusual climate, a wide selection of plants from all over the world can successfully be grown here - over 5,000 species - and the number is constantly increasing. Many of the collections are particularly outstanding, such as Conifers and dwarf conifers, Rhododendrons, Asiatic magnolias and Succulents.

## STRYBING ARBORETUM SOCIETY

The Strybing Arboretum Society volunteers provide information and tours of the Arboretum in Golden Gate Park. An information kiosk is located just inside the main gates. Garden literature, a guide list, slides and postcards of Arboretum plants, maps of the Arboretum and Golden Gate Park, and pamphlets containing self-guiding tours are available for sale as well as an illustrated Garden Guide.

Opposite the kiosk is the entrance to the Helen Crocker Russell Library, open to the public from 10 AM until 4 PM every day except holidays. It is a non-circulating reference library with a collection of over 8,000 horticultural and botanical books.

Tours of the Arboretum, led by trained volunteer docent-guides, leave from the kiosk at 1:30 PM daily and also 10:30 AM on Saturday and Sunday. Special school or adult tours may be arranged by calling the Education Coordinator at 661-0822.

Lecture series are also sponsored by the Society along with an annual spring plant sale, as well as monthly plant sales of unusual and rare plants difficult to find elsewhere.

## Merionettes Synchronized Swim Team

Synchronized swimming is the newest olympic sport. The opportunity to train and compete as a synchronized swimmer is offered to all young girls, ages 6-11 years of age.

The San Francisco Merionettes have been in existence for 30 years and continue to be a major component of womens sports in San Francisco. The only prerequisite to registration for this program is to have no fear of the water and some beginning swim experience.

The new recruits are trained by supportive, experienced coaches in swimming techniques and at the same time develop increased stamina as speed swimmers. After they have succeeded in passing the required tests, the girls are trained in water figures, better known as synchronized swimming. As they are perfecting their configurations, they are trained as gymnasts, to execute patterns and routines that have been choreographed to music.

Beginners train two times per week at 5 PM, working up to 3 - 5 evenings a week at indoor pools in the City. Girls compete locally and nationally. Last season's schedule included travel to the National Meet in New York. The team placed 5th out of 24 teams in the standings. Girls of varying races, ethnic, religious and socio-economic backgrounds successfully interact and form a sisterhood because of numerous practices and performance hours spent together.

To inquire about registration, please contact Carol Cockburn at 681-1443 or Lona Albano at 333-1608.

# CHILD DEVELOPMENT ACTIVITIES

Over 100 Varied Child Development activities are offered in recreation centers and playgrounds throughout the City. This program has a proud heritage dating back to the 1950's as evidenced by the many return visits paid our staff by former participants with fond memories.

The **Tiny Tot Program** offers a variety of activities for children ages 2 1/2 to 5 years. The playgroups are supervised by staff trained to work with children. Their function is to present stimulating, happy, and satisfying experiences, to provide appropriate material, and give assistance when help is needed. The activities encourage the development of a positive self-image, promote improvement of language ability, and offer child participation in socialization experiences. The essence of the program is not formal instruction but rather the acceptance of children where they are both physically, emotionally, and cognitively nurtured and furnished with materials, setting and climate which will best promote their growth and development. The curriculum

includes creative arts and crafts, nature and science, active games, books and language experience, large muscle activity, and music.

The many Tiny Tot Programs provide a setting where small children have an opportunity to participate in enjoyable activities which promote their readiness for formal learning and community life. Parent participation in the program makes possible a carryover into the home of positive skills and attitudes which have been developed through association with other parents and youngsters under warm accepting leadership. Fees do not exceed \$25.00 per semester.

The newly developed **Kid's Gym Class** enhances natural growth and development of young children 12-30 months of age. This parent participation program is offered at a limited number of recreation centers and playgrounds in ten week sessions for a fee of \$15.00 for 10 weeks. Specialized movement equipment is available for participants to explore and enjoy.

# CHILD DEVELOPMENT ACTIVITIES

**Special Interest Classes** are offered in: Tumbling, Dance, Music, Cooking, Story-Telling, and Art at several recreation centers and playgrounds throughout the City. For more information please call: Nancy Rose, Program Coordinator, at 666-7020.

## AFTER SCHOOL PROGRAM

The School Site - After School Program offers supervised, safe and accessible recreation, educational and social activities for school age youth. School Site Programs that operate at school yards and in school gymnasiums operate with the cooperation of the San Francisco Unified School District. The program operates on a year-around basis. There is no charge to participants. This is a drop-in program.

As community and family needs change, the Recreation and Park Department strives to provide programs to meet those changing needs.

The School Site - After School Program, which reflects this philosophy, is made possible by Open Space Funds, set aside by the 1986 ballot measure, Proposition D.

Currently there are thirty-six sites which are located at school yards, parks, gymnasiums and playgrounds. The sites are located throughout the City.

The school site programs will operate throughout this school year, beginning on September 5, 1989. The operating hours at school yards will depend upon the school release time. School gyms will operate 6:00 PM - 9:00 PM. Most school yard, park and playground are open on Saturdays from 11:00 AM - 5:00 PM. Gymnasiums are closed on Saturdays. All sites are closed on Sundays.

*Please note:* During the San Francisco Unified School District's Winter Recess (December 18 - January 1), and Spring Recess (April 9 - 13), the school yard, park and playground sites will operate on extended hours that are anticipated to be Monday-Saturday 11:00 AM - 5:00 PM. School gymnasiums will operate on regular schedules during these recesses.

# HARVEY MILK RECREATIONAL ARTS BUILDING

The Harvey Milk Recreational Arts Building, located at the top of Duboce Park, is the lively center of many cultural pursuits in the City.

It houses the Recreation and Park Department's unique Photography Center, a studio for dance classes and aerobics, a Music Rehearsal Hall and a wardrobe department for theatrical productions among its extensive facilities.

Headquartered at the Harvey Milk Recreational Arts Building, the Drama and Dance and Music Divisions reach out to the community offering many enriching opportunities through the City's neighborhood recreation centers.

## DRAMA AND DANCE

### Children & Teens

#### Drama Classes and Workshops

The Drama and Dance Division, headquartered in the Harvey Milk Recreational Arts Building, 50 Scott Street, provides drama and dance classes, workshops and companies for youth and adult participants at the Harvey Milk Center and at neighborhood playgrounds and recreation centers throughout the City.

The classes have both long and short term goals; to develop the artistic skills and abilities of participants over the long term, while focusing on providing fun, enjoyment, self expression and a positive performance experience when classes culminate in public performances for friends and families.

The level of dramatic classes and workshops available to a young person is determined by their interest, age, skills and abilities.

Drama workshops focus on skits, charades and theatre games for 7 - 12 year olds. "Junior Theater" is for 10 - 16 year olds with a deeper interest in performance. The Young People's Musical Theater Company is geared toward the teenager who desires a more serious approach and long term commitment to "Broadway" theater. In addition to its continuous classes, the Young People's Musical Theatre Company offers a "by auditions only" summer workshop that culminates in the performance of a major musical production. Workshops and performances are often given at the Randall Museum located at Roosevelt Way and Museum Way.

Dance classes for youth include a wide variety of styles with instructors focusing on simple combinations and routines during the beginning stages and gradually leading into more creative and complex routines and patterns. Tap, Ballet, and Jazz are currently among the most popular dance styles being taught.

Adult Dance Classes include a well balanced variety of modern and traditional styles of dance. Techniques differ according to instructor. Aerobic Dance Classes are also extremely popular and the preferred method of staying fit by many of the participants.

# SPECIAL NEEDS

The Special Needs Division sponsors programs for adults and children with developmental disabilities and emotional disturbances, as well as special programs designed for people with hearing or vision impairment, or orthopedic limitations.

Programs serving people with developmental disabilities provide a comfortable atmosphere where social interaction takes place as a natural result. Suitable activities provide satisfying experiences for individuals according to their interest, capacity and developmental needs. In addition to recreation, living skills enhancement are part of some of the programs - providing opportunities for such activities as setting the table for lunch, or helping with cleanup.

The program for children with hearing impairments provides an environment where the children can play, explore and develop their skills in recreational activities, while interacting with both deaf and hearing peers, which leads to the development of more trusting and equal relationships. Another goal of this program is to promote awareness of the problems of people with hearing impairments within the hearing community, and to familiarize participants with the cultural activities and resources available to people with hearing disabilities.

The program for adults with hearing impairments focuses on providing opportunities for physical activities and trips to points of interest in the Bay Area.

The program for emotionally disturbed adults provides a variety of activities geared toward broadening individual experiences.

Children with low vision can participate in a program offering swimming, and other recreational and athletic activities, field trips and adventure excursions as well as interaction with sighted peers and life skills development opportunities.

Special programs for each of these groups, as well as for orthopedically disabled, range from 1-4 days per week. Call 666-7043 for information on specific programs planned for the summer.

## Special Events planned for the fall are:

Hands Around the Bay "Halloween Party" for developmentally disabled is on Friday, October 27, 1989 at 11 AM, at the San Francisco County Fair Building. Call for more information.

*San Francisco Recreation and Park Department's Special Needs Division helps coordinate a therapeutic horseback riding program for children with physical disabilities. Volunteers from the James Brady Riding Program and sponsorships by the Student League and Grand Prix Association make the sessions possible.*

Thanksgiving to be scheduled, by invitation only! Call for more information.

Christmas Party for the developmentally disabled is on Thursday, December 12, in the Gallery, San Francisco County Fair Building at 11 AM, by invitation only. Call for more information.

Adults with low vision meet once a week for a field trip to points of interest within the Bay Area. The Special Needs Division provides a van and driver. Space is limited; the van holds 12 adult passengers.

Every third Saturday of each month at Sunset Recreation Center, the Special Needs Division sponsors a Young Adult Dance for developmentally disabled, from 2 - 4 PM.

# FRIENDS OF RECREATION AND PARKS

There's a place for citizens in caring for our public parks. It's called Friends of Recreation and Parks. San Francisco is justly proud of her public gardens and recreation opportunities. It is our challenge to keep it that way.

Come be a friend to the millions of people whose lives are enriched by our parks and to the wildlife they support. Join us now. It is an investment in your future. Call 221-1310 for more information.

The Friends of Recreation and Parks was created in 1971 to:

- Stimulate interest in the incredibly wonderful programs and activities of San Francisco's Recreation and Park Department.
- Raise money to keep the future bright for the almost 4,000 acres of park properties, 13 recreation centers, 9 swimming pools, 6 golf courses, 4 stadiums, 1 carousel, 2 windmills, an arts and crafts studio, the zoo, a High Sierra camp, numerous youth and adult athletic programs, Coit Tower and the myriad wonders of Golden Gate Park.

## Bus Tour of San Francisco's Other Parks

The Friends is once again pleased to offer the members and guests the very popular All Day Bus Tour of San Francisco's *Other Parks* (not Golden Gate Park).

Our tour will take you to 19 of the City's oldest and most interesting parks and recreation centers. Our guides will give you the historical background of each and discuss further developments now in the planning stage.

Please reserve early to be sure of space. For more information, call 221-1310.

Departing: Saturday, October 7, 1989, 9:45 AM

Returning: 3 PM (parking available at McLaren Lodge during tour)

\$12.50 per person for members

\$15 per person for non-members

(Fee includes box lunch with wine and soda)

One of San Francisco's favorite events is the annual *Opera in the Park* hosted each Fall by the Friends of Recreation and Parks.

# LAKE MERCED

In the heart of the City - a bit of the country. A rare treasure is Lake Merced, covering 368 acres. Located at #1 Harding Road, Skyline at the Great Highway (753-1101), it is one of the largest natural open spaces within San Francisco. Recreational facilities at the Lake include Harding and Fleming Golf Courses and the Lake Merced Sports Center. Concessionaires at the Sports Center rent small non-power boats and issue fishing permits. The golf course and boathouse restaurants are open to the public. The Lake is also a favorite site for walking, jogging, bicycling, and bird watching. Lake Merced is probably the single most productive birding area in San Francisco. The Lake also serves as an emergency reservoir for the City.

## BOAT RENTALS

Row boats, paddle boats, sail boats and canoes are available on both lakes 7 days a week. Floation devices are included in each rental while anchors may be rented for \$2.00 a day. Paddle boats hold a maximum of 2 persons, canoes a maximum of 3 persons and row boats a maximum of 4 average size persons. Safety is a primary concern, horse-play or overloading of boats is not allowed.

- Boats are available on a first come first served basis.
- A \$20.00 deposit is required on each boat, \$30.00 on electric motor and boat.
- You must be 16 years of age or older to rent a boat.

## FISHING INFORMATION

### General

Both lakes provide very good trout fishing year round. No need to travel hundreds of miles when this fine fishery is located so close to home. Trout fishing tends to be best in the spring and fall, but the weather keeps water conditions good throughout the summer. Because of limited run off, the water remains clear in the winter, enhancing fishing conditions. Black bass, carp and catfish also provide action for fishermen. Bass to 8 pounds have been taken from both lakes. Carp to 15 pounds often test an anglers skill and should not be overlooked for the excellent sport they can provide. The rainbow trout is the most popular fish here, ranking from 6 inches to 10 pounds. Two pound trout are very common in the North lake.

### North Lake - Trophy Trout

North Lake at Lake Merced has been designated a trophy trout lake. These trout range from 3/4 pound up to 10 pounds. The average trout is about 12 to 14 inches long and

weighs approximately 1 pound. The Department of Fish and Game also plants the lake monthly, with approximately 8,000 smaller fish averaging 1/4 to 1/3 pound each. The mix of small and large trout makes for an excellent fishery. When that light bite starts, a fisherman may be hooking into an 8 inch frying pan special or a 10 pound monster. A \$2.50 daily access fee is charged to finance this program.

### South Lake

The South Lake at Lake Merced also provides a fine trout fishery. Fish and Game plants approximately 90,000 trout a year into the South Lake. These trout average 1/4 - 1/3 pound each. Limits of small fish are very common. Some large holdover trout in the 5 pound range are caught each year. The South Lake is also occasionally stocked with larger trout in the 1 pound range. A daily or annual permit is required on this lake. Participants must be 16 years of age and older.

\$1.00 Daily

\$8.00 Annual for non Seniors

\$4.00 Annual for Seniors

### Rules and Regulations

All persons 16 years of age or older who fish Lake Merced must possess a valid California State Fishing License. In addition to a state license, North Lake daily fishing permits are also required for any person to fish in the North Lake.

These permits cost \$2.50 a day and are used to finance the extensive fish planting program in this lake. Children 11 and under may fish off another fisherman's permit but only 1 limit is allowed between the 2 fisherman. Permits are available at the bait and tackle shop and are only valid for the day on which they are purchased.

The South Lake also requires a valid permit. Daily permits cost \$1.00. Annual permits are available for the South Lake only. The annual fee is \$8.00 or \$4.00 for seniors (62 and over). North and South Lake permits are not interchangeable.

### Limits

Trout - 5; Bass - 5; Catfish - 10; Carp - No limit

All California Fish and Game laws are enforced. Please check the sport fishing regulations for further information. No night fishing is allowed. Fishing is not permitted on shoreline lined by tules. Boaters may not tie to tules. **The tule area at Lake Merced is a habitat for water fowl and native wildflowers. Please keep out of marked areas.**

# STRYBING ARBORETUM AND BOTANICAL GARDENS

9th Avenue at Lincoln Way, Golden Gate Park 661-1316

## ARBORETUM

An Arboretum is a living library of plants. Its main purpose is educational, serving as a living reference for all plant lovers. Because of San Francisco's unusual climate, a wide selection of plants from all over the world can successfully be grown here - over 5,000 species - and the number is constantly increasing. Many of the collections are particularly outstanding, such as Conifers and dwarf conifers, Rhododendrons, Asiatic magnolias and Succulents.

## STRYBING ARBORETUM SOCIETY

The Strybing Arboretum Society volunteers provide information and tours of the Arboretum in Golden Gate Park. An information kiosk is located just inside the main gates. Garden literature, a guide list, slides and postcards of Arboretum plants, maps of the Arboretum and Golden Gate Park, and pamphlets containing self-guiding tours are available for sale as well as an illustrated Garden Guide.

Opposite the kiosk is the entrance to the Helen Crocker Russell Library, open to the public from 10 AM until 4 PM every day except holidays. It is a non-circulating reference library with a collection of over 8,000 horticultural and botanical books.

Tours of the Arboretum, led by trained volunteer docent-guides, leave from the kiosk at 1:30 PM daily and also 10:30 AM on Saturday and Sunday. Special school or adult tours may be arranged by calling the Education Coordinator at 661-0822.

Lecture series are also sponsored by the Society along with an annual spring plant sale, as well as monthly plant sales of unusual and rare plants difficult to find elsewhere.

### MERIONETTES SYNCHRONIZED SWIM TEAM RECRUITMENT

Synchronized swimming is the newest olympic sport. The opportunity to train and compete as a synchronized swimmer is offered to all young girls, ages 6-14 years of age.

## AQUATICS

Recruitment will take place at Balboa Pool, September 15th, 11:30 a.m. - 1:30 p.m. and September 22nd, 11:30 a.m. - 1:30 p.m. Girls should bring a bathing suit, towel, and be accompanied by a parent. Some swimming experience is necessary.

The San Francisco Merionettes have been in existence for 30 years and continue to be a major component of womens sports in San Francisco. The only prerequisite to registration for this program is to have no fear of the water and some beginning swim experience.

The new recruits are trained by supportive, experienced coaches in swimming techniques and at the same time develop increased stamina as speed swimmers. After they have succeeded in passing the required tests, the girls are trained in water figures, better known as synchronized swimming. As they are perfecting their configurations, they are trained as gymnasts, to execute patterns and routines that have been choreographed to music.

Beginners train two times per week at 5 p.m., working up to 3-5 evenings a week at indoor pools in the City. Girls compete locally and nationally. This season's schedule includes travel to Southern California, for the regional competition and possibly on to New York. Girls of varying races, ethnic, religious and socio-economic backgrounds successfully interact and form a sisterhood because of numerous practices and performance hours spent together.

To inquire about registration, please contact Carol Cockburn at 681-1443 or Lona Albano at 333-1608.

This activity is recommended for boys and girls, 7 years of age and older. The trampoline will be used under the direct supervision of a qualified instructor. Beginner class sessions are limited to 16 participants only.

We strongly advise that children who are participating in this program understand that it is for beginners and if they progress over the capabilities of other members of the class, that additional instruction will be available upon the recommendation of the trampoline instructor, at a more advanced class at Portola or Milton Meyer Recreation Centers.

For a child to participate, a "Parent Release Slip" is issued by this Department and must be signed by the parent and presented to the trampoline instructor. Children without a properly completed release form will not be allowed to participate. These forms are available from the Recreation Director of the recreation facilities at which classes have been assigned.

## AIKIDO YOSHINKAI

A Japanese Martial Art

AIKIDO, the "Gentle Martial Art" grew out of the combat discipline of the Samurai. Aikido is a rela-

tively new art which combines rigorous physical discipline and practical effectiveness with an emphasis on personal growth.

The term Aikido may be literally translated as "the way of harmonizing vital energy." Unlike the other martial arts, Aikido is not developed to win, but rather to neutralize an opponent's power.

In Aikido, mental or emotional energy ("ki") is at the core of the art. One develops and concentrates one's own energy, learns to harmonize that energy with a partner and finally unifies one's individual energy. With these three levels, Aikido has become a way of training in self-discipline, harmony and love.

Aikido teaches relaxed, smooth and balanced movement. It teaches mind-body coordination and harmony with one's partner. In addition, Aikido is excellent physical exercise and effective self defense. From a psychological viewpoint, Aikido demonstrates the importance of self-control and relaxation. Students learn that softness, calmness and harmony are not weakness; that in fact, such qualities are the most effective responses one can make to violence and aggression. The practice of Aikido then includes elements of philosophy, psychology and physical training combined in a single unified discipline.

Masatoshi Morita is the head instructor of the Aikido Association of Northern California. He has taught Aikido extensively throughout the Midwest and is on the Board of Directors of the Aikido Yoshinkai Association of Northern America.

## CHILD DEVELOPMENT ACTIVITIES

**T**he Community Services Division offers over 100 Varied Child Development activities in recreation centers and playgrounds throughout the City. This program has a proud heritage dating back to the 1950's as evidenced by the many return visits paid our staff by former participants with fond memories.

The TINY TOT PROGRAM offers a variety of activities for children ages 2-1/2 to 5 years. The playgrounds are supervised by staff trained to work with children. Their function is to present stimulating, happy and satisfying experiences, to provide appropriate material, and give assistance when help is needed. The activities encourage the development of a positive self-image, promote improvement of

language ability, and offer child participation in socialization experiences. The essence of the program is not formal instruction but rather the acceptance of children where they are both physically, emotionally, and cognitively nurtured and furnished with materials, setting and climate which will best promote their growth and development. The curriculum includes creative arts and crafts, nature and science, active games, books and language experience, large muscle activity, and music.

The many Tiny Tot Programs provide a setting where small children have an opportunity to participate in enjoyable activities which promote their readiness for formal learning and community life. Parent participation in the program makes possible a

## EXTENDED SERVICES FOR CHILDREN

### AFTER SCHOOL SITE PROGRAM

The After School Site Program offers supervised, safe and accessible recreation, educational, and social activities for school age youth. School site programs that operate at school yards and in school gymnasiums operate with the cooperation of the San Francisco Unified School District. The program operates on a year-round basis. This is a drop-in program. See Division 4 section of this booklet for locations and hours of operation. For more information, call 666-7028.

### LATCHKEY PROGRAM

The San Francisco Recreation and Park Department is offering supervised Citywide Latchkey programs at recreation facilities around the city.

The program is designed for youngsters between the ages of 6 and 12 years. The program provides structured activities to youth who otherwise would be home alone or without supervision until a parent or older relative arrives home. The program is not designed as day care custodial care, rather a quality recreation program offered at a most critical time of day providing a very important service to young children and parents alike. See Division 6 section of this booklet for locations and hours of operation. For more information, call 666-7033.

## SPECIAL NEEDS

**T**he Special Needs Division sponsors programs for adults and children with developmental disabilities and emotional disturbances, as well as special programs designed for people with hearing or vision impairment, or orthopedic limitations.

Programs serving people with developmental disabilities provide a comfortable atmosphere where social interaction takes place as a natural result. Suitable activities provide satisfying experiences for individuals according to their interest, capacity and developmental needs. In addition to recreation, living skills enhancement are part of some of the programs - providing opportunities for such activities as setting the table for lunch, or helping with cleanup.

The program for children with hearing impairments provides an environment where the children can play, explore and develop their skills in recreational activities, while interacting with both deaf and hearing peers, which leads to the development of more trusting and equal relationships. Another goal of this program is to promote awareness of the problems of people with hearing impairments within the hearing community, and to familiarize participants with the cultural activities and resources available to people with hearing disabilities.

The program for adults with hearing impairments focuses on providing opportunities for physical activities and trips to points of interest in the Bay Area.

The program for emotionally disturbed adults provides a variety of activities geared toward broadening individual experiences.

Children with low vision can participate in a program offering swimming, and other recreational and athletic activities, field trips and adventure excursions as well as interaction with sighted peers and life skills development opportunities.

Special programs for each of these groups, as well as for orthopedically disabled, range from 1-4 days per week. Call 666-7039 for information on specific programs.

## FRIENDS OF RECREATION & PARKS

**T**here's a place for citizens in caring for our public parks. It's called Friends of Recreation and Parks. San Francisco is justly proud of her public gardens and recreation opportunities. It is our challenge to keep it that way.

Come be a friend to the millions of people whose lives are enriched by our parks and to the wildlife they support. Join us now. It is an investment in your future.

The Friends of Recreation and Parks was created in 1971 to:

- Raise money to keep the future bright for the almost 4,000 acres of park properties, 13 recreation centers, 9 swimming pools, 6 golf courses, 4 stadiums, 1 carrousel, 2 windmills, and arts and crafts studio, the zoo, a High Sierra camp, numerous youth and adult athletic programs, Coit Tower and the myriad wonders of Golden Gate Park.

## LAKE MERCED

In the heart of the City - a bit of the country...a rare treasure is Lake Merced, covering 368 acres. Located at #1 Harding Road, Skyline at the Great Highway (753-1101), it is one of the largest natural open spaces within San Francisco. Recreational facilities at the Lake include Harding and Fleming Golf Courses and the Lake Merced Sports Center. Concessionaires at the Sports Center rent small non-power boats and issue fishing permits. The golf course and boathouse restaurants are open to the public. The Lake is also a favorite site for walking, jogging, bicycling, and bird watching. Lake Merced is probably the single most productive birding area in San Francisco. The Lake also serves as an emergency reservoir for the City.

## BOAT RENTALS

Row boats, paddle boats, sail boats and canoes are available on both lakes 7 days a week. Floatation devices are included in each rental while anchors may be rented for \$2.00 a day. Paddle boats hold a maximum of two persons, canoes a maximum of 3 persons and row boats a maximum of 4 average size persons. Safety is a primary concern, horse-play or overloading of boats is not allowed.

- Boats are available on a first come first served basis.
- A \$20.00 deposit is required on each boat, \$30.00 on electric motor and boat.

## FISHING INFORMATION

## GENERAL

Both lakes provide very good trout fishing year round. No need to travel hundreds of miles when this fine fishery is located so close to home. Trout fishing tends to be best in the spring and fall, but the weather keeps water conditions good throughout the summer. Because of limited run off, the water remains clear in the winter, enhancing fishing conditions. Black bass, carp and catfish also provide action for fishermen. Bass to 8 pounds have been taken from both lakes. Carp to 15 pounds often test an anglers skill and should not be overlooked for the excellent sport they can provide. The rainbow trout is the most popular fish here, ranking from 6 inches to 10 pounds. Two pound trout are very common in the North lake.

## NORTH LAKE - TROPHY TROUT

North Lake at Lake Merced has been designated a trophy trout lake. These trout range from 3/4 pound up to 10 pounds. The average trout is about 12 to 14 inches long and weighs approximately 1 pound. The Department of Fish and Game also plants the lake monthly, with approximately 8,000 smaller fish averaging 1/4 to 1/3 pound each. The mix of small and large trout makes for an excellent fishery. When that light bite starts, a fisherman may be hooking into an 8 inch frying pan special or a 10 pound monster. A \$2.50 daily access fee is charged to finance this program.

## SOUTH LAKE

The South Lake at Lake Merced also provides a fine trout fishery. Fish and Game plants approximately 90,000 trout a year into the South Lake. These trout average 1/4 - 1/3 pound each. Limits of small fish are very common. Some large holdover trout in the 5 pound range are caught each year. The South Lake is also occasionally stocked with larger trout in the 1 pound range. A daily or annual permit is required on this lake. Participants must be 16 years of age and older.

\$4.00 Annual for Seniors

### RULES AND REGULATIONS

All persons 16 years of age or older who fish Lake Merced must possess a valid California State Fishing License. In addition to a state license, North Lake daily fishing permits are also required for any person to fish in the North Lake.

These permits cost \$2.50 a day and are used to finance the extensive fish planting program in this lake. Children 11 and under may fish off another fisherman's permit but only 1 limit is allowed between the 2 fisherman. Permits are available at the bait and tackle shop and are only valid for the day on which they are purchased.

The South Lake also requires a valid permit. Daily permits cost \$1.00. Annual permits are available for

the South Lake only. The annual fee is \$8.00 or \$4.00 for seniors (62 and over). North and South Lake permits are not interchangeable.

### LIMITS

Trout - 5; Bass - 5; Catfish - 10; Carp - No limit

All California Fish and Game laws are enforced. Please check the sport fishing regulations for further information. No night fishing is allowed. Fishing is not permitted on shoreline lined by tules. This program has a proud heritage dating back to the 1950's as evidenced by the many return visits paid our staff by former participants with fond memories.

The TINY TOT PROGRAM offers a variety of activities for children ages 2 ½ to 5 years. The playgrounds are supervised by staff trained to work with children. Their function is to present stimulating, happy and satisfying experiences, to provide

appropriate material, and give assistance when help is needed. The activities encourage the development of a positive self-image, promote improvement of language ability, and offer child participation in socialization experiences. The essence of the program is not formal instruction but rather the acceptance of children where they are both physically, emotionally, and cognitively nurtured and furnished with materials, setting and climate which will best promote their growth and development. The curriculum includes creative arts and crafts, nature and science, active games, books and language experience, large muscle activity, and music.

## Child Development Activities

The many Tiny Tot Programs provide a setting where small children have an opportunity to participate in enjoyable activities which promote their readiness for formal learning and community life. Parent participation in the program makes possible a carryover into the home of positive skills and attitudes which have been developed through association with other parents and youngsters under warm accepting leadership. Fees do not exceed \$25.00 per semester.

The KID'S GYM CLASS enhances natural growth and development of young children 12-30 months of age. This parent participation program is offered at a limited number of recreation centers and playgrounds in ten week sessions for a fee of \$15.00 for 10 weeks. Specialized movement equipment is available for participants to explore and enjoy.

SPECIAL INTEREST CLASSES are taught in: Tumbling, Dance, Music, Cooking, Story-Telling, and Art at several recreation centers and playgrounds throughout the City.

### AFTER SCHOOL PROGRAM

The School Site After School Program was created to provide structured, safe, and accessible recreational and educational activities for school-age youth on a year round basis.

The School Site After School Program provides these programs at no charge to all school-age youth throughout the City and County of San Francisco. The program, born out of concern for children and youth who might be at home unsupervised during the after school hours, offers a variety of programs that are designed to meet their recreational, educational, and social needs.

The San Francisco Unified School District's school yards and gymnasiums comprise the majority of the locations for these programs. In addition, the program utilizes San Francisco Recreation and Park Department locations and San Francisco Housing locations.

If you have any questions about the School Site After School Program, please call 666-7028.

## Special Needs

PHOTO BY PERRY J. NENNIG

The Special Needs Division sponsors programs for adults and children with developmental disabilities and emotional disturbances, as well as special programs designed for people with hearing or vision impairment, or orthopedic limitations.

Programs serving people with developmental disabilities provide a comfortable atmosphere where social interaction takes place as a natural result. Suitable activities provide satisfying experiences for individuals according to their interest, capacity and developmental needs. In addition to recreation, living skills enhancement are part of some of the programs - providing opportunities for such activities as setting the table for lunch, or helping with cleanup.

The program for deaf children provides an environment where the children can play, explore and develop their skills in recreational activities,

while interacting with both deaf and hearing peers, which leads to the development of more trusting and equal relationships. Another goal of this program is to promote awareness of the problems of people with hearing impairments within the hearing community, and to familiarize participants with the cultural activities and resources available to people with hearing disabilities.

The program for adults with hearing impairments focuses on providing opportunities for physical activities and trips to points of interest in the Bay Area.

The program for emotionally disturbed adults provides a variety of activities geared toward broadening individual experiences.

Special programs for each of these groups range from 1-4 days per week. Call 666-7039 for information on specific programs.

## Lake Merced

In the heart of the City - a bit of the country...a rare treasure is Lake Merced, covering 368 acres. Located at #1 Harding Road, Skyline at the Great Highway (753-1101), it is one of the largest natural open spaces within San Francisco. Recreational facilities at the Lake include Harding and Fleming Golf Courses and the Lake Merced Sports Center. Concessionaires at the Sports Center rent small non-power boats and issue fishing permits. The golf course and boathouse restaurants are open to the public. The Lake is also a favorite site for walking, jogging, bicycling, and bird watching. Lake Merced is probably the single most productive birding area in San Francisco. The Lake also serves as an emergency reservoir for the City.

### BOAT RENTALS

Row boats, paddle boats, sail boats and canoes are available on both lakes 7 days a week. Floatation devices are included in each rental while anchors may be rented for \$2.00 a day. Paddle boats hold a maximum of two persons, canoes a maximum of 3 persons and row boats a maximum of 4 average size persons. Safety is a primary concern, horse-play or overloading of boats is not allowed.

### FISHING INFORMATION

#### General

Both lakes provide very good trout fishing year round. No need to travel hundreds of miles when this fine fishery is located so close to home. Trout fishing tends to be best in the spring and fall, but the weather keeps water conditions good throughout the summer. Because of limited run off, the water remains clear in the winter, enhancing fishing conditions. Black bass, carp and catfish also provide action for fishermen. Bass to 8 pounds have been taken from both lakes. Carp to 15 pounds often test an anglers skill and should not be overlooked for the excellent sport they can provide. The rainbow trout is the most popular fish here, ranking from 6 inches to 10 pounds. Two pound trout are very common in the North lake.

#### North Lake - Trophy Trout

North Lake at Lake Merced has been designated a trophy trout lake. These trout range from 3/4 pound up to 10 pounds. The average trout is about 12 to 14 inches long and weighs approximately 1 pound. The Department of Fish and Game also plants the lake monthly, with approximately 8,000 smaller fish averaging 1/4 to 1/3 pound each. The mix of small and large trout makes for an excellent fishery. When that light bite starts, a fisherman may be hooking into an 8 inch frying pan special or a 10 pound monster. A \$2.50 daily access fee is charged to finance this program.

#### South Lake

The South Lake at Lake Merced also provides a fine trout fishery. Fish and Game plants approximately 90,000 trout a year into the South Lake. These trout average 1/4 - 1/3 pound each. Limits of small fish are very common. Some large holdover trout in the 5 pound range are caught each year. The South Lake is also occasionally stocked with larger trout in the 1 pound range. A daily or annual permit is required on this lake. Participants must be 16 years of age and older.

### Rules and Regulations

All persons 16 years of age or older who fish Lake Merced must possess a valid California State Fishing License. In addition to a state license, North Lake daily fishing permits are also required for any person to fish in the North Lake.

These permits cost \$2.50 a day and are used to finance the extensive fish planting program in this lake. Children 11 and under may fish off another fisherman's permit but only 1 limit is allowed between the 2 fisherman. Permits are available at the bait and tackle shop and are only valid for the day on which they are purchased.

The South Lake also requires a valid permit. Daily permits cost \$1.00. Annual permits are available for

the South Lake only. The annual fee is \$8.00 or \$4.00 for seniors (62 and over). North and South Lake permits are not interchangeable.

### Limits

Trout - 5; Bass - 5; Catfish - 10; Carp - No limit

All California Fish and Game laws are enforced. Please check the sport fishing regulations for further information. No night fishing is allowed. Fishing is not permitted on shoreline lined by tules. Boaters may not tie to tules. **The tule area at Lake Merced is a habitat for water fowl and native wildflowers. Please keep out of marked areas.**

## Strybing Arboretum & Botanical Gardens

An Arboretum is a living library of plants. Its main purpose is educational, serving as a living reference for all plant lovers. Because of San Francisco's unusual climate, a wide selection of plants from all over the world can successfully be grown here - over 5,000 species - and the number is constantly increasing. Many of the collections are particularly outstanding, such as Conifers and dwarf conifers, Rhododendrons, Asiatic magnolias and Succulents.

### STRYBING ARBORETUM SOCIETY

The Strybing Arboretum Society volunteers provide information and tours of the Arboretum in Golden Gate Park. An information kiosk is located just inside the main gates. Garden literature, a guide list, slides and postcards of Arboretum plants, maps of the Arboretum and Golden Gate Park, and pamphlets containing self-guiding tours are available for sale as well as an illustrated Garden Guide.

Opposite the kiosk is the entrance to the Helen Crocker Russell Library, open to the public from 10 AM until 4 PM every day except holidays. It is a non-circulating reference library with a collection of over 8,000 horticultural and botanical books.

Tours of the Arboretum, led by trained volunteer docent-guides, leave from the kiosk at 1:30 PM daily and also 10:30 AM on Saturday and Sunday. Special school or adult tours may be arranged by calling the Education Coordinator at 661-0822.

Lecture series are also sponsored by the Society along with an annual spring plant sale, as well as monthly plant sales of unusual and rare plants difficult to find elsewhere.

### HORTICULTURE/BOTANY

Certificate in Ornamental Plants (marked ♦)  
Strybing Arboretum Society offers a series of courses on plants appropriate for Bay Area gardens and landscapes. Here's what's offered in each class:

- Four to six 2-hour indoor sessions
- 40 - 60 common, uncommon, and unusual plants in each course (8 - 10 plants each week)

California is home to a seed industry that produces annual flower seed for the world. Bay Area gardeners are fortunate to be able to grow a wide range of annual plants in our mild climate. But are you overwhelmed by the wide selection of cultivated varieties and yearly introductions of many of these annuals? What varieties are best for our climate; which are the right height and color? Learn to identify, grow, and aesthetically use over 40 of the best annuals (and their cultivars) for the Bay Area. Plants will be illustrated using live specimens and slides.

### A Study of Asteraceae, the Daisy Family

A Continuation of the Strybing course "Taxonomy for Gardeners"  
Two Wednesdays, July 10 & 17, 7 - 9 p.m.  
SF County Fair Building  
Dr. Robert Patterson

Members \$24, non-members \$30 (bring a 10x hand lens; some will be available for purchase at the first class)

Learn to recognize and "key out" many summer-blooming plants that belong to the daisy family, Asteraceae (synonym: Compositae). What floral and vegetative characteristics do yarrows, artemisias, asters, chrysanthemums, coreopsis, dahlias, and marigolds have in common? The course will include field study in the Gardens' diverse plant collections, as well as indoor instruction. This course is a good follow-up to the introductory "Taxonomy for Gardeners" course offered in the autumn of 1990.

## San Francisco Zoo

### New Waterfront Property

It's black tie only at this housewarming party. The San Francisco Zoological Garden's Magellanic penguins are choosing new homes on their recently renovated Penguin Island. After a brief stay in another exhibit during renovation, the birds returned to find new, larger burrows, and a rocky beach area where they can dry off, court, and preen. Each burrow has a flat porch area to facilitate breeding and a large interior for nest-building and egg laying. The new island design also provides the penguins with shade trees,

dune grass, and a mountain rockscape resembling their native coastal breeding grounds.

Penguin pairs promptly set out choosing their new homes — just in time for breeding season. The Zoo hopes to see new penguin chicks this spring — including the 100th hatchling since Penguin Island opened in 1984. The exhibit is the most successful captive breeding colony of Magellanic penguins in the world

## Croquet in Stern Grove

The San Francisco Croquet Club in Stern Grove, a non-profit public benefit corporation, is the largest municipal croquet organization in the country, offering year-round activities for individuals and groups.

*Corporate Programs:* Three or four hour resort-class programs for groups of up to 100 are tailored to the sponsoring organization's requirements and produced by the San Francisco Croquet Club. With world-class equipment, fast lawns, and an unmatched coach-to-player ratio, these group programs rival the best offerings of the West's finest croquet resorts, and the tax-deductible fee goes directly to the Friends of Recreation and Parks for the maintenance and improvement of Stern Grove.

# Child Development Activities

**SUMMER  
1992**

The San Francisco Recreation and Park Department offers many Child Development activities in recreation centers and playgrounds throughout the City. This program has a proud heritage dating back to the 1950's as evidenced by the many return visits paid our staff by former participants with fond memories.

The TINY TOT PROGRAM offers a variety of activities for children ages 2 ½ to 5 years. The playgrounds are supervised by staff trained to work with children. Their function is to present stimulating, happy and satisfying experiences, to provide appropriate material, and give assistance when help is needed. The activities encourage the development of a positive self-image, promote improvement of language ability, and offer child participation in socialization experiences. The essence of the program is not formal instruction but rather the acceptance of children where they are both physically, emotionally, and cognitively nurtured and furnished with materials, setting and climate which will best promote their growth and development. The curriculum includes creative arts and crafts, nature and science, active games, books and language experience, large muscle activity, and music.

The many Tiny Tot Programs provide a setting where small children have an opportunity to participate in enjoyable activities which promote their readiness for formal learning and community life. Parent participation in the program makes possible a carryover into the home of positive skills and attitudes which have been developed through association with other parents and youngsters under warm accepting leadership. Fees do not exceed \$25.00 per semester.

The KID'S GYM CLASS enhances natural growth and development of young children 12-30 months of age. This parent participation program is offered at a limited number of recreation centers and playgrounds in ten week sessions for a fee of \$15.00 for 10 weeks. Specialized movement equipment is available for participants to explore and enjoy.

SPECIAL INTEREST CLASSES are taught in: Tumbling, Dance, Music, Cooking, Story-Telling, and Art at several recreation centers and playgrounds throughout the City.

## Requirements for enrollment in Child Development/Tiny Tot Programs

The Community Services Division of the San Francisco Recreation and Park Department offers a variety of Child Development/Tiny Tot Activity Programs for pre-school children. 3. Each child must have an up-to-date EMERGENCY INFORMATION CARD on file with the Recreation Director.

### Parent Participation

2. In order to maintain a cooperative program effort, an orientation for volunteer parents will be provided.

### Policies, Registration and Fees

## AFTER SCHOOL PROGRAM

The School Site After School Program was created to provide structured, safe, and accessible recreational and educational activities for school-age youth on a year round basis.

The School Site After School Program provides these programs at no charge to all school-age youth throughout the City and County of San Francisco. The program, born out of concern for children and youth who might be at home unsupervised during the after school hours, offers a variety of programs that are designed to meet their recreational, educational, and social needs.

The San Francisco Unified School District's school yards and gymnasiums comprise the majority of the locations for these programs. In addition, the program utilizes San Francisco Recreation and Park Department locations and San Francisco Housing locations.

If you have any questions about the School Site After School Program, please call 666-7028.

**PHOTOGRAPHY CENTER**

One of San Francisco's most innovative programs for  
the creative arts is the Photography Center. The  
Center is the largest municipal photographic facility  
in the nation, with a set of 40 enlargers!

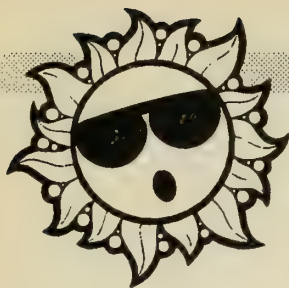

Each enlarger has its own private booth. In addition  
to the black & white printing darkroom, the Center's  
facilities include a film developing room; a dry  
mounting and matting area; studio space with light-  
ing equipment; and an exhibition site for its mem-  
bers. Black & white paper chemistry is provided by  
the Center while print washing and drying is done  
by the staff. An experienced and knowledgeable  
crew is on hand to assist the members with photo-  
graphic questions or problems.

Throughout the year, the 37 year old Center also  
offers numerous photography classes which are  
reasonably priced and designed for all skill levels  
from the absolute beginner to the advanced photog-  
rapher.

The Photography Center is located in the Harvey  
Milk Recreational Arts Building, 50 Scott Street. Call  
554-9522 for more information or a free schedule of  
classes.

# Special Needs

**SUMMER  
1992**

During the summer, the Special Needs Division sponsors programs for adults with developmental disabilities and emotional disturbances, as well as special programs designed for young adults who are deaf. These programs are held in cooperation with Toolworks, a non-profit vocational training educational center. Programs serving people with developmental disabilities provide a comfortable atmosphere where social interaction takes place as a natural result. Suitable activities provide satisfying experiences for individuals according to their interest, capacity and developmental needs.

The program for deaf children provides an environment where the children can play, explore and develop their skills in recreational activities, while interacting with both deaf and hearing peers, which leads to the development of more trusting and equal relationships. Another goal of this program is to promote awareness of the problems of people with hearing impairments within the hearing community, and to familiarize participants with the cultural activities and resources available to people with hearing disabilities.

The program for young adults, who are deaf, focuses on providing opportunities for physical activities and trips to points of interest in the Bay Area.

The program for emotionally disturbed adults provides a variety of activities geared toward broadening individual experiences. Call 666-7039 for information on specific programs.

# Lake Merced

SUMMER  
1992

In the heart of the City - a bit of the country...a rare treasure is Lake Merced, covering 368 acres. Located at #1 Harding Road, Skyline at the Great Highway (753-1101), it is one of the largest natural open spaces within San Francisco. Recreational facilities at the Lake include Harding and Fleming Golf Courses and the Lake Merced Sports Center. Concessionaires at the Sports Center rent small non-power boats and issue fishing permits. The golf course and boathouse restaurants are open to the public. The Lake is also a favorite site for walking, jogging, bicycling, and bird watching. Lake Merced is probably the single most productive birding area in San Francisco. The Lake also serves as an emergency reservoir for the City.

## FISHING INFORMATION

### General

Both lakes provide very good trout fishing year round. No need to travel hundreds of miles when this fine fishery is located so close to home. Trout fishing tends to be best in the spring and fall, but the weather keeps water conditions good throughout the summer. Because of limited run off, the water remains clear in the winter, enhancing fishing conditions. Black bass, carp and catfish also provide action for fishermen. Bass to 8 pounds have been taken from both lakes. Carp to 15 pounds often test an anglers skill and should not be overlooked for the excellent sport they can provide. The rainbow trout is the most popular fish here, ranking from 6 inches to 10 pounds. Two pound trout are very common in the North lake.

### North Lake - Trophy Trout

North Lake at Lake Merced has been designated a trophy trout lake. These trout range from ¾ pound up to 10 pounds. The average trout is about 12 to 14 inches long and weighs approximately 1 pound. The Department of Fish and Game also plants the lake monthly, with approximately 8,000 smaller fish averaging 1/4 to 1/3 pound each. The mix of small and large trout makes for an excellent fishery. When that light bite starts, a fisherman may be hooking into an 8 inch frying pan special or a 10 pound monster. A \$3.00 daily access fee is charged to finance this program.

### South Lake

The South Lake at Lake Merced also provides a fine trout fishery. Fish and Game plants approximately 90,000 trout a year into the South Lake. These trout average 1/4 - 1/3 pound each. Limits of small fish are very common. Some large holdover trout in the 5 pound range are caught each year. The South Lake is also occasionally stocked with larger trout in the 1 pound range. A daily or annual permit is required on this lake. Participants must be 16 years of age and older.

## Rules and Regulations

All persons 16 years of age or older who fish Lake Merced must possess a valid California State Fishing License. In addition to a state license, North Lake daily fishing permits are also required for any person to fish in the North Lake.

These permits cost \$3.00 a day and are used to finance the extensive fish planting program in this lake. Children 11 and under may fish off another fisherman's permit but only 1 limit is allowed between the 2 fisherman. Permits are available at the bait and tackle shop and are only valid for the day on which they are purchased.

The South Lake also requires a valid permit. Daily permits cost 95¢. Annual permits are available for the South Lake only. The annual fee is \$8.00 or \$4.00 for seniors (62 and over). North and South Lake permits are not interchangeable.

## Limits

Trout - 5; Bass - 5; Catfish - 10; Carp - No limit

All California Fish and Game laws are enforced. Please check the sport fishing regulations for further information. No night fishing is allowed. Fishing is not permitted on shoreline lined by tules. # Strybing Arboretum and Botanical Gardens

**SUMMER  
1992**

An Arboretum is a living library of plants. Its main purpose is educational, serving as a living reference for all plant lovers. Because of San Francisco's unusual climate, a wide selection of plants from all over the world can successfully be grown here - over 5,000 species - and the number is constantly increasing. Many of the collections are particularly outstanding, such as Conifers and dwarf conifers, Rhododendrons, Asiatic magnolias and Succulents.

## **STRYBING ARBORETUM SOCIETY**

The Strybing Arboretum Society volunteers provide information and tours of the Arboretum in Golden Gate Park. An information kiosk is located just inside the main gates. Garden literature, a guide list, slides and postcards of Arboretum plants, maps of the Arboretum and Golden Gate Park, and pamphlets containing self-guiding tours are available for sale as well as an illustrated Garden Guide.

Opposite the kiosk is the entrance to the Helen Crocker Russell Library, open to the public from 10 AM until 4 PM every day except holidays. It is a non-circulating reference library with a collection of over 8,000 horticultural and botanical books.

Tours of the Arboretum, led by trained volunteer docent-guides, leave from the kiosk at 1:30 PM daily and also 10:30 AM on Saturday and Sunday. Special school or adult tours may be arranged by calling the Education Coordinator at 661-0822.

Lecture series are also sponsored by the Society along with an annual spring plant sale, as well as monthly plant sales of unusual and rare plants difficult to find elsewhere.

## **Membership**

If you are interested in supporting the Strybing Arboretum Society and its activities and in enjoying the benefits, you may inquire about membership at the kiosk or the library by phoning (415) 661-1316 Monday through Friday, 9 AM to 4:30 PM

### **Twilight Supper and Walk in the Botanical Gardens**

An Evening of Food from Real Food Company and  
Plant Walks at the Botanical Gardens  
Friday, June 26, 6 p.m. - 8:30 p.m.

Adults \$10.00

Children of members \$5.00, children on non-members  
\$8.00 (includes the cost of dinner).

Tickets must be purchased in advance!

Join us in the Gardens after the gates are closed for a delicious vegetarian supper prepared by Real Food Company. Evening in the Botanical Gardens is much different than a daytime visit - whether it is clear and warm or cool and foggy, the Gardens are still and quiet.

Jane Miller and Drew Oman will talk about the "botany" of the vegetables, fruits, and drinks you are eating. Is that strawberry really a "berry?" What about that potato in the salad?

After the meal, they will be joined by staff and Strybing docents who will lead walks and forays into the plant collections.

Just for children, we will lead walks into the Gardens through the dark, foreboding Redwood Trail, the Dr. Seuss Land of plants in our Succulent Garden, and to our wild Nature Trail.

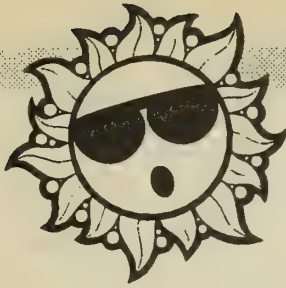

So bring your whole family and invite your friends to this first of, what we hope, will be a Strybing tradition.

Summer programming runs on weekends only from May 23 to June 14, and every day beginning June 16 and continuing through Labor Day on September 7. The Children's Zoo summer hours are 10:30 a.m. to 4:30 p.m. every day.

# Child Development Activities

The San Francisco Recreation and Park Department offers many Child Development activities in recreation centers and playgrounds throughout the City. This program has a proud heritage dating back to the 1950's as evidenced by the many return visits paid our staff by former participants with fond memories.

The TINY TOT PROGRAM offers a variety of activities for children ages 2 ½ to 5 years. The playgrounds are supervised by staff trained to work with children. Their function is to present stimulating, happy and satisfying experiences, to provide appropriate material, and give assistance when help is needed. The activities encourage the development of a positive self-image, promote improvement of language ability, and offer child participation in socialization experiences. The essence of the program is not formal instruction but rather the acceptance of children where they are both physically, emotionally, and cognitively nurtured and furnished with materials, setting and climate which will best promote their growth and development. The curriculum includes creative arts and crafts, nature and science, active games, books and language experience, large muscle activity, and music.

The many Tiny Tot Programs provide a setting where small children have an opportunity to participate in enjoyable activities which promote their readiness for formal learning and community life. Parent participation in the program makes possible a carryover into the home of positive skills and attitudes which have been developed through association with other parents and youngsters under warm accepting leadership.

# Special Needs

The Special Needs Division sponsors programs for adults and children with developmental disabilities and emotional disturbances, as well as special programs designed for people with hearing or vision impairment, or orthopedic limitations.

Programs serving people with developmental disabilities provide a comfortable atmosphere where social interaction takes place as a natural result. Suitable activities provide satisfying experiences for individuals according to their interest, capacity and developmental needs. In addition to recreation, living skills enhancement are part of some of the programs - providing opportunities for such activities as setting the table for lunch, or helping with cleanup.

The program for children with hearing impairments provides an environment where the children can play, explore and develop their skills in recreational activities, while interacting with both deaf and hearing peers, which leads to the development of more trusting and equal relationships. One of the goals of this program is to promote awareness of the problems of people with hearing impairments within the hearing community, and to familiarize participants with the cultural activities and resources available to people with hearing disabilities.

The program for adults with hearing impairments focuses on providing opportunities for physical activities and trips to points of interest in the Bay Area.

The program for adults with emotional disabilities and chemical dependency rehabilitation provides opportunities for physical activities and trips to points of interest in the Bay Area.

Children with low vision can participate in a program offering swimming, and other recreational and athletic activities, field trips and adventure excursions as well as interaction with sighted peers and life skills development opportunities in cooperation with the California League for the Handicapped.

Special programs for each of these groups, as well as for orthopedically disabled, range from 1-4 days per week. Call 666-7043 for information on specific programs.

Special events planned for the fall are:

## Halloween "Hands Around the Bay"

# Friends of Recreation & Park

There is a place for citizens in caring for our parks... it's called Friends of Recreation and Parks. San Francisco is justly proud of her public gardens and recreation opportunities. It is our challenge to keep it that way.

The Friends of Recreation and Parks is a non-profit organization dedicated to creating interest in and support for the programs and activities of San Francisco's Recreation and Park Department.

Funds generated by our membership and by private donations directly benefit the 4,000 acres of park properties including fourteen recreation centers, nine swimming pools, five golf courses, four stadiums, day camps, numerous youth and adult athletic programs, the zoo, two carousels, windmills, and the myriad wonders of Golden Gate Park.

Be a Friend to the millions of people whose lives are enriched by our parks. Join now. Membership fees: Friend - \$15; Good Friend \$35; Best Friend - \$100. Make your check out to Friends of Recreation and Parks Department, and send to McLaren Lodge, Fell and Stanyan Streets, Golden Gate Park, San Francisco, CA 94117.

## **"You Gotta Have Park" 1991**

Come join Friends of Recreation and Parks for the first annual "You Gotta Have Park" Day, Saturday, October 17. Bring your children, grandchildren, parents, neighbors, and friends, and help us celebrate Golden Gate Park. Pick up litter, plant trees, pull weeds, paint benches, and sweep up the Park. After your labors, enjoy a free hotdog and soft drink, and music with your new Friends. Meet at the meadow just west of the Rose Garden on Kennedy Drive at 9 a.m. Lunch will be at noon. \$1 donation requested. For more information, call 221-1310.

## **Special Tours**

Sunday, October 18th, 11 a.m. Begins at the John McLaren statue in front of the Rhododendron Dell on Kennedy Drive. Ends at the Pershing statue in the Music Concourse Area. # Lake Merced

In the heart of the City - a bit of the country...a rare treasure is Lake Merced, covering 368 acres. Located at #1 Harding Road, Skyline at the Great Highway (753-1101), it is one of the largest natural open spaces within San Francisco. Recreational facilities at the Lake include Harding and Fleming Golf Courses and the Lake Merced Sports Center. Concessionaires at the Sports Center rent small non-power boats and sell fishing permits (they also sell California Fishing Licenses; annual or one day). The golf course and boathouse restaurants are open to the public. The Lake is also a favorite site for walking, jogging, bicycling, and bird watching. Lake Merced is probably the single most productive birding area in San Francisco. The Lake also serves as an emergency reservoir for the City.

## BOAT RENTALS

Row boats with electric motors, paddle boats, sail boats and canoes are available on both lakes 7 days a week. Floatation devices are included in each rental while anchors may be rented for \$2.00 a day. ## FISHING INFORMATION

### General

Both lakes provide very good trout fishing year round. No need to travel hundreds of miles when this fine fishery is located so close to home. Trout fishing tends to be best in the spring and fall, but the weather keeps water conditions good throughout the summer. Because of limited run off, the water remains clear in the winter, enhancing fishing conditions. Black bass, carp and catfish also provide action for fishermen. Bass to 8 pounds have been taken from both lakes. Carp to 20 pounds+ and catfish to 24 pounds often test an anglers skill and should not be overlooked for the excellent sport they can provide. The rainbow trout is the most popular fish here, ranking from 6 inches to 17 1/2 pounds. Two pound trout are very common in the North lake.

### North Lake - Trophy Trout

North Lake at Lake Merced has been designated a trophy trout lake. These trout range from 3/4 pound up to 10 pounds. The average trout is about 12 to 14 inches long and weighs approximately 2 pounds. The Department of Fish and Game also plants the lake monthly, with approximately 8,000 smaller fish averaging 1/4 to 1/3 pound each. The mix of small and large trout makes for an excellent fishery. When that light bite starts, a fisherman may be hooking into an 8 inch frying pan special or a 10 pound monster. A \$3.00 daily access fee is charged to finance this program.

### South Lake

The South Lake at Lake Merced also provides a fine trout fishery. Fish and Game plants approximately

Fishing, Special Programs and Classes, Boat Rentals and much more are available at Lake Merced.

90,000 trout a year into the South Lake. These trout average 1/4 - 1/3 pound each. Limits of small fish are very common. Some large holdover trout in the 5 pound range are caught each year. The South Lake is also often stocked with larger trout in the 2 to 4 pound range. A daily or annual permit is required on this lake. Participants must be 16 years of age and older.

\$5.00 Annual for Seniors

## Rules and Regulations

All persons 16 years of age or older who fish Lake Merced must possess a valid California State Fishing License. In addition to a state license, North Lake daily fishing permits are also required for any person to fish in the North Lake.

These permits cost \$3.00 a day and are used to finance the extensive fish planting program in this lake. Children 11 and under may fish off another fisherman's permit but only 1 limit is allowed between the 2 fisherman. Permits are available at the bait and tackle shop and are only valid for the day on which they are purchased.

The South Lake also requires a valid permit. Daily permits cost 95¢. Annual permits are available for the South Lake only. The annual fee is \$8.00 or \$4.00 for seniors (62 and over). North and South Lake permits are not interchangeable.

## Limits

Trout - 5; Bass - 5; Catfish - 10; Carp - No limit

All California Fish and Game laws are enforced. Please check the sport fishing regulations for further information. No night fishing is allowed. Fishing is not permitted on shoreline lined by tules. Boaters may not tie to tules. **The tule area at Lake Merced is a habitat for water fowl and native wildflowers. Please keep out of marked areas.**

# Strybing Arboretum and Botanical Gardens

**GET IN  
ON THE  
FUN!**

An Arboretum is a living library of plants. Its main purpose is educational, serving as a living reference for all plant lovers. Because of San Francisco's unusual climate, a wide selection of plants from all over the world can successfully be grown here - over 5,000 species - and the number is constantly increasing. Many of the collections are particularly outstanding, such as Conifers and dwarf conifers, Rhododendrons, Asiatic magnolias and Succulents.

## STRYBING ARBORETUM SOCIETY

The Strybing Arboretum Society volunteers provide information and tours of the Arboretum in Golden Gate Park. An information kiosk is located just inside the main gates. Garden literature, a guide list, slides and postcards of Arboretum plants, maps of the Arboretum and Golden Gate Park, and pamphlets containing self-guiding tours are available for sale as well as an illustrated Garden Guide.

Opposite the kiosk is the entrance to the Helen Crocker Russell Library, open to the public from 10 AM until 4 PM every day except holidays. It is a non-circulating reference library with a collection of over 8,000 horticultural and botanical books.

Tours of the Arboretum, led by trained volunteer docent-guides, leave from the kiosk at 1:30 PM daily and also 10:30 AM on Saturday and Sunday. Special school or adult tours may be arranged by calling the Education Coordinator at 661-0822.

Lecture series are also sponsored by the Society along with an annual spring plant sale, as well as monthly plant sales of unusual and rare plants difficult to find elsewhere.

## Membership
